Truck Tank & Trailer Washing Guidance

Interior Tank Washing is prohibited without a Class A Wastewater Discharge Permit. Operations must cease until a permit is obtained.

Interior Trailer Washing is prohibited until written approval and permission from the City of Phoenix Water Services Department Environmental Services is obtained.

1. The facility must submit an operations procedure which includes the certification statement below and is signed by an authorized signatory pursuant to *40 § 403.12(l) Signatory Requirements*. The procedure shall detail:
   a. how manifest or shipping papers will be evaluated prior to washing
   b. that retention of documentation listing the contents of each preceding load for trailers washed will be kept onsite for a 90-day period
   c. how the facility will monitor the wash area
   d. how nonhazardous solids will be disposed
   e. how hazardous solids and liquids will be contained and disposed
   f. how wastewater will be monitored and pretreated prior to sewer discharge to ensure compliance with Phoenix City Code Chapter 28
   g. how the facility will document monitoring and pretreatment of wastewater

Certification Statement

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

2. The facility must post bilingual signs at the wash area indicating that washout of hazardous materials and solids to the sewer are prohibited.
