

Phoenix Fire Department

Fire Prevention - Plan Review

Over the Counter New Construction Permits Application

Underground Fireline Stub-out F801 Permit Fee: **\$135.00 each**
 Only for u/g fireline stub-outs installed for the connection of automatic sprinkler systems. Stub-out shall not extend more than 10 feet outside of the building, shall not extend more than six inches above finished floor and shall not have more than three 90-degree bends. Flushing of stub-outs is required prior to installation of the sprinkler.

Number of stub-outs: _____ x \$135.00 = _____

Fire Alarm System Modification with or without one power booster F802 Permit Fee: **\$150.00**
 For fire alarm modifications of 1-5 devices only, may include power booster (subject to field inspection).

Number of devices: _____

Special Egress Control Device F805 Permit Fee: **\$150.00**
 Tie-in to fire alarm panel only. This requires prior approval from the Development Service Department.

Number of floors: _____ x \$150.00 = _____

Automatic Sprinkler System Modification F809 Permit Fee: **\$150.00**
 Sprinkler modification of 1-50 sprinkler heads. (Flex type sprinkler heads are not allowed for over-the-counter permits.)

Number of heads: _____

Fire Alarm Dialer F875 Permit Fee: **\$150.00**
 Install supervising off-premises fire alarm transmitters (dialers). Maximum of 8 devices plus the control panel: copy of the dialer cut sheet and battery calcs is to be provided to the field inspector.

Type of Dialer: _____

All installations are subject to field inspection. Complex changes or installations may require that plans and calculations be submitted for plan review (to be determined by inspector). Call 602-262-7462 to schedule the inspection.
