POTABLE WATER

A Direct Connections between potable water piping and sewer connected wastes shall not exist under any conditions with or without backflow protection. Where potable water is discharged to the drainage system it shall be by means of an approved air gap of (2) two pipe diameters of the supply inlet, but in no case shall the gap be less than (1) one inch.

No Potable water piping shall be installed or maintained within any piping or device conveying sewage, wastes or other materials hazardous to health and safety.
