**Notes:**

**1 County Islands.** These data may or may not include unincorporated Maricopa County islands.

**2 Language Spoken at Home.** The data category "speak English less than well" provided in this profile of selected social characteristics is not comparable to U.S. Census Bureau DP-2 which displays numbers for those that "speak English less than very well".

**3 Sample Data.** Summary File 3 data are sample data that are extracted from 1 in 6 households. It provides estimates for small groups & geographic areas. Summary File 1 data provide exact numbers for very small groups and geographic areas. SF3 data estimates for small groups and geographic areas may be less exact. Consequently, there may be differences between SF3 sample data and SF1 100-percent count values. The goal of SF3 is to identify large differences among areas or large changes over time

**4 Housing Excluded.** Specified Owner-Occupied units include only 1-family houses on less than 10 acres without a business or medical office on the property. The data for "Specified Units" excludes mobile homes, houses with a business or medical office, houses on 10 acres or more, and housing units in multiunit buildings.

**5 Total Differences.** Each SF3 table is created individually from a combination of questions derived from the census long form. Consequently, tables with similar data may have different values. For example: under HOUSING TENURE, Total Renter-Occupied units may have a different total compared to the sum of those units paying rent and those units that pay no cash rent under GROSS RENT.
