UCR historical-official record.xls

Uniform Crime Reporting counts should not be compared with Arizona Revised Statute numbers. UCR data excludes unfounded cases. Population figures are provided by the City of Phoenix Planning Department and are based on the Maricopa Association of Governments, Draft 3 Population & Unemployment Data, April 2003. These population numbers are projections based on the Municipal Planning Area (MPA) rather than the actual incorporated limits of the city, due to the changing nature of city boundaries. Prior to 2003, population was only reported based on the MPA. All population values are based on the projections that were available at the time the information was initially collected. Prior year projections have not been updated. The corporate limits population estimate as of September 30, 2008 was 1,562,218.
