About Phoenix Water

- For over **100 years**, Phoenix Water has delivered safe, reliable tap water to homes and businesses in our community.
- Employs over **1,450 employees** to provide water and wastewater services to the City of Phoenix.
- Covers **540 square-mile service area** and provides over **1.7 million** people with water service and **2.5 million** people with wastewater treatment services.
- Responds to more than **1.5 million inquiries** each year regarding water pressure, water quality, and wastewater odor. We also repair problems in the water distribution and wastewater collection systems that impact our customers.
- We **ensure sustainable supplies**. Thanks to our customers' willingness to conserve, Phoenix currently uses only around half of its Salt & Verde River water supplies, and around 2/3 of its Colorado River water supplies.
- Phoenix is a **pioneer in the use of reclaimed wastewater**. We've been reclaiming wastewater and reusing this supply since the 1960's, long before other communities in the arid west.
