Introduction and Goals

Introduction

The Arts and Culture Department champions, promotes, and supports the City's arts and culture community, making Phoenix a great place to live, work, and visit.

The Arts and Culture Department (ACD) is a local and national leader in the public art field and has garnered numerous awards for design excellence, including Design for Transportation awards from the U.S. Department of Transportation and Public Art Network Year in Review awards from Americans for the Arts.

Established in 1986, the Public Art Program works with local, national, and international artists to create a more beautiful and vibrant city. By ordinance, one percent of the Capital Improvement Program is utilized to enhance the design of public buildings, infrastructure, and spaces within the City of Phoenix. Since its inception, the program has completed more than 200 major projects, including airport terminals, community centers, streetscapes, parks, canals, transit centers, bridges, underpasses, recycling centers, and public safety buildings.

A competitive procurement process identifies artists for public art projects. The process utilizes a selection panel containing art and design professionals, project stakeholders, and community representatives relevant to the project's location. City staff and project team members often serve as non-voting advisors to the panel. Panelists are responsible for reviewing applications submitted in response to a Call to Artists, interviewing finalists, and making recommendations to the Arts and Culture Commission, a volunteer citizen advisory board appointed by City Council. The quality of work, suitability for the project, and the ability to work well with the community and other design professionals influence the selection panel's final recommendations. The Phoenix City Council approves the final recommendation before the contract is executed and artists begin work.

ACD develops the FY 2024-2029 Public Art Plan annually with input and assistance from the Mayor and City Council, city residents, artists, city departments that provide public art project funding, and the Arts and Culture Commission. The timing of the plan coincides with the annual Capital Improvement Program budgeted per fiscal year (July 1 – June 30; for example, FY 2024-2025 = July 2024 – June 2025). The plan outlines several project types, including design team projects, permanent commissions, purchases of existing artwork, temporary commissions, art refurbishment and retrofits, and master planning. Overhead costs to administer the projects in the plan, including staff costs, are approximately 15% of the total five-year budget.

Goals

Public art projects within the FY 2024-2029 Public Art Plan are prioritized based on opportunities to integrate artwork into individual Capital Improvement Program projects and their potential impact on the neighborhood and the broader arts community. These decisions are made closely with funding departments and City Council offices. Under these parameters, the FY 2024-2029 Public Art Plan focuses on the equitable distribution of funds, as allowable by the percent-for-art ordinance, and the diversification of the public art collection through broadening the types of project opportunities and continued outreach to new artists and arts organizations.

Additionally, ACD strives to develop project opportunities and program policies that align with strategic goals outlined in several long-range planning documents, like the Climate Action Plan and the Phoenix General Plan. Some of these efforts are realized through the FY 2024-2029 Public Art Plan, like promoting the use of sustainable materials and sourcing methods to commissioned artists and proactively seeking community input on project opportunities. As the FY 2024-2029 Public Art Plan is implemented, ACD will continue integrating these important citywide goals.

FY 2023-2024 Completed Public Art Projects

CAPITAL IMPROVEMENT PROGRAM PROJECTS

Drought Pipeline Walls and Fences Council District 6

Artist Mary Shindell was contracted to work with the Water Services Department and its project team to design two walls that were constructed as a part of the Drought Pipeline Relocation Project. The first wall is a 364-foot integral colored concrete block wall located along Maryland Avenue near 22nd Street. The second is a 60-foot cast in place relief concrete wall that is located along 20th Street at Northview Avenue. Designs for both walls are inspired by native desert plants. This project was completed in 2023.

Solano Park – Skate Park Council District 4 *(Partial Completion)*

Artists Tom Drugan and Laura Haddad were contracted to create artwork for Solano Park, with a particular focus on the skate park. The artwork, titled *Pipe Dreams*, was designed in partnership with the Parks Department, the local skate community, and area residents. It references a late 1970s skate spot known as the “Desert Pipes,” a series of large concrete pipe sections temporarily stockpiled in the desert. The artwork includes three steel pipes; the southernmost pipe is 8’ wide and skateable. This project is scheduled to be complete in July 2024 and is also featured on the cover of this Plan.

**Western Canalscape
Council District 7, 8
(Partial Completion)**

Two existing stainless-steel sculptures were purchased for placement along the Western Canal at 20th Street. A 5’7” tall sculpture, titled *Uanm*, was purchased from artist Ken McCall and a 11’ tall sculpture, titled *Ascension*, was purchased from artist Hector Ortega. These sculptures are scheduled to be installed in late 2024.

EXTERNAL AND INTERNAL PARTNERSHIP PROJECTS

**S’edav Va’aki Museum
Council District 8**

In partnership with the S’edav Va’aki Museum (formerly known as Pueblo Grande Museum) and Artlink, Inc., Arts and Culture contracted O’Odham artist Thomas “Breeze” Marcus to create a large-scale mural for the community building, adjacent to the museum entrance. The mural, titled *Legacy*, was commissioned in celebration of the museum’s renaming to highlight the connection the site has with the local O’Odham and Piipaash communities. This project was funded with American Rescue Plan Act dollars and is featured on the cover of this Plan.

Artist Thomas “Breeze” Marcus signs his artwork as Mayor Gallego and CM Hodge-Washington look on

Hot Days, Cool Fun children's activity booklet City-wide

In partnership with the Office of Heat Response and Mitigation, the Library Department, and Arizona State University, Arts and Culture contracted Lisa Mac Studio to design a children's activity booklet for heat safety. These books are free and have been given away at several City of Phoenix events. Children can learn about safe ways to play in the summer, signs of heat exhaustion, and how to pack a HeatReady kit.

The booklet was created with support from the environmental Protection Agency's "Let's Talk About Heat Challenge," a national competition to innovate communication strategies that educate people about extreme heat and how to stay safe.

Trash/Recycling bin wraps Council District 7

Artists Ariana Enriquez and Kathryn Maxwell were commissioned to create wraps for trash and recycling bins located in the Evans Churchill and Roosevelt historic neighborhoods. These often-overlooked objects now have unique designs that provide a cohesive identity for the community. The artists worked closely with neighborhood representatives and the Community and Economic Development Department to realize their vision.

FY 2023-2024 Completed Refurbishment and Retrofit Projects

Shadow Play **Council District 7**

A contractor was hired to repaint this functional artwork by Meejin Yoon. The artwork consists of series of shade structures, seating, and landscaping at three sites along Roosevelt Street in the heart of the Roosevelt Arts District in downtown Phoenix. Solar-powered canopies draw renewable energy from the sun to light the space at night. The project was completed in 2015 and regularly sees heavy use from pedestrians and transit riders. The repair work was completed in March 2024.

FY 2023-2024 Awards and Accomplishments

Bloomberg Philanthropies Public Art Challenge Award

In October 2023, Bloomberg Philanthropies selected Phoenix as one of eight winners of its prestigious Public Art Challenge. This unique program supports temporary public art projects that address important local civic issues in cities nationwide. Phoenix's project, *jSombra! The Celebration of Shade*, received \$1,000,000 to commission nine artists to create shading and cooling installations in response to extreme urban heat. These projects will be on view in the spring of 2025 in various parks throughout the city; then in September 2025, the projects will be reinstalled at Steele Indian School Park for a free, one-day festival. In partnership with Maricopa Association of Governments and AZ Department of Transportation, the City will complete State Road 303 from Lake Pleasant to the I-17 interchange. Project opportunities include four new ramps/bridges that will be built over existing roads, the 67th Avenue interchange, and the Lake Pleasant Parkway interchange. Artist Eric Powell was contracted in a previous fiscal year (\$80,000) to work with the design team to incorporate permanent public art to enhance the roadway improvements. This project is in the design phase and is expected to be complete in 2026.

Project Number AR63850022
Project Title McDowell Road Revitalization Project
Location McDowell Rd, between 7th St. and SR 51
Type of Project Design Team and Permanent Commission
Funding Source Street Transportation, Water and Wastewater Capital Funds
Budget \$762,408
Council District 4

The City is in the early planning stages of a project to revitalize the McDowell Road corridor between 7th Street and State Route 51. The focus of this study is to identify and confirm community-supported safety and aesthetic improvements to achieve four main goals: creating a safer and more inviting area for people walking or riding bicycles to locations along the corridor; improving navigation in and around the retail areas; enhancing access to transit; and fostering a sense of place and identity. An artist will be commissioned to create artwork in support of these goals. This project is in the planning phase.

Project Number AR66000021
Project Title Portable Works
Location Phoenix Sky Harbor International Airport
Type of Project Purchase of Existing Artwork, Temporary Commissions
Funding Source Aviation Capital Funds
Budget \$171,668
Council District 8

Artworks will be commissioned and purchased to support the Phoenix Airport Museum’s collection. The Museum’s collection presents themed exhibitions in more than 40 display areas throughout the Airport system. The artwork enhances the visitor's experience by creating a memorable environment, promoting Arizona’s unique artistic and cultural heritage, and honoring the airport's aviation history. These projects are in the planning phase.

Project Title	Rio Reimagined
Location	7th St. to 7th Ave.
Type of Project	Design Team, Temporary and Permanent Commissions
Funding Source	Wastewater Capital Funds
Budget	\$600,000
Council District	7, 8

The Rio Reimagined Project is a vision to revitalize the Rio Salado (Salt River), Aqua Fria, and Gila Rivers, and the region by transforming over 45 miles of the river stretching from the Salt River Pima Maricopa Indian Community at the eastern most boundary to the City of Buckeye to the west and encompassing more than 78,000 acres. Artists will be selected at several phases of the project to engage the community and design permanent and temporary artwork to enhance the visitor experience. This project is in the planning phase.

FY 2024-2029 Multi-Year Initiatives

Completing the following projects requires significant funding resources over the next five fiscal years. Funding for the planning and implementation of these projects is included in the FY 2024-2029 Public Art Plan. Funding of all projects is subject to City Council approval through future plans.

General Obligation Bond Program

On November 7, 2023 Phoenix voters passed the City Council approved \$500 million General Obligation (GO) Bond Program. GO Bond programs help to fund critical infrastructure and rehabilitation needs of City facilities such as parks, libraries, fire and police stations, affordable housing, streets, and storm drains. Approved projects are prioritized and allocated over the five-year period of fiscal year 2024-2025 to fiscal year 2028-2029 and included in the Preliminary Capital Improvement Program (CIP) scheduled approved by City Council on March 19, 2024. Each of the four proposition includes a percent-for-art calculation which must be spent on projects in each proposition. A breakdown of proposed public art projects is in the next section.

Artist Initiatives

On-going temporary installations provide crucial professional development opportunities for emerging artists and those new to public art. Temporary installations can also activate underutilized spaces and provide neighborhoods with new ways to engage with artists. This program also supports the Bloomberg Philanthropies Public Art Challenge.

Collaborative Neighborhood Projects

Artists will be selected to work directly with neighborhood and business associations, such as theHUB (Hatcher Urban Businesses) and the Bell Road Business Alliance, to enhance parks, business corridors, and other community amenities. These enhancements foster community collaborations and external partnerships that expand the reach of the public art program.

Community Water Facilities Improvements

Over the years, multiple artists have been contracted to work with the community and the Water Services Department to improve the security and appearance of community water facilities citywide, including well sites and lift stations.

Phoenix Sky Harbor International Airport

Phoenix Sky Harbor International Airport's new terminal modernizations represent the City's most significant opportunity to reach the widest public with integrated public art and design. PSHIA handles more than 40 million passengers annually. ACD staff continue to work with Aviation staff and its design teams to carry out a comprehensive plan to integrate significant art and design to enhance travelers' experience. Projects will be implemented in step with the airport modernization phases.

Public Works Recycling and Sustainability Initiative

ACD has worked with the Public Works Department since 1990 to involve artists in the design of innovative recycling centers, and in building awareness of the need for recycling and sustainable resource management. Artists will be contracted to create artworks that expand awareness about recycling and sustainable resource management by introducing new ways to reuse materials and bolster City efforts to increase recycling citywide.

Rio Reimagined

Rio Reimagined is the Valley's most impactful green infrastructure project in a century. Rio Salado, or the Salt River, is a historically significant and underutilized natural resource reimagined as a unifying public space. A creative and collective effort is underway to integrate priorities of public open space, environmental quality, housing, transportation, economic and workforce development, community sustainability, and resilience. ACD staff work with the Planning Department to identify and integrate permanent and temporary public art opportunities.

Shade, Cooling, and Heat Mitigation

Artists will be contracted to work with the community and various City departments to enhance the pedestrian experience by increasing shade options and improving shaded connectivity. The enhancements will be coordinated with City efforts to reduce the impact of urban heat and improve mobility citywide through initiatives like Cool Corridors. The initiative also includes matching funds for the Bloomberg Philanthropies Public Art Challenge grant.

Tres Rios Wetlands

Adam Kuby has been selected to work with City departments, consultants and the community to create significant environmental recreation and education opportunities at Tres Rios Wetlands. This project is part of this multi-year effort to improve the seven-mile, 1,500-acre wetland at the confluence of the Salt and Gila Rivers in southwestern Phoenix.
