

Neighborhood Notification: Bicycle Improvements on 81st Avenue / Papago Street from Durango Street to 79th Avenue & 79th Avenue from Papago Street to Buckeye Road

As part of the Street Transportation Department's core mission, we strive to improve the City's roadways to create a safe and efficient transportation network. Our ongoing pavement maintenance program provides opportunities to change the current traffic lane striping to improve safety for people who walk, drive, ride bicycles and use transit.

About the Project

Where: 81st Ave / Papago St from Durango St to 79th Ave & 79th Ave from Papago St to Buckeye Rd

What: Where there is enough space on the roadway, buffers will be added to existing bike lanes. The number of travel lanes will remain the same. The project does not remove or add parking.

When: Pavement maintenance (new asphalt) is planned for Spring 2024 and traffic lane improvements will happen shortly after.

Why: Buffered bike lanes add space between people driving and people walking or biking for increased protection from vehicles, improved safety and added comfort. The slight narrowing of the lane widths to accommodate the buffered bike lanes will help to guide cars and deter speeding.

What will the Project Look Like?

81st Ave / Papago St from Durango St to 79th Ave

Current travel lanes

Proposed travel lanes

79th Ave from Papago St to Buckeye Rd

Current travel lanes

Proposed travel lanes
