

Neighborhood Notification: Bicycle Improvements on Campbell Avenue from 113th Drive to 107th Avenue

As part of the Street Transportation Department's core mission, we strive to improve the City's roadways to create a safe and efficient transportation network. Our ongoing review of street design provides opportunities to change the current traffic lane striping to improve safety for people who walk, drive, ride bicycles and use transit.

About the Project

Where: Campbell Avenue from 113th Drive to 107th Avenue

What: Where there is enough space on the roadway, bike lanes will be added. The number of travel lanes remain the same. Parking will only be removed in front of the school field at the approach to 107th Avenue.

When: Traffic lane improvements are planned for 2024.

Why: Bike lanes add space between people driving and people walking or biking for increased protection from vehicles, improved safety and added comfort. Additionally, the slight narrowing of the lane widths to accommodate the bike lanes will help to guide cars and deter speeding.

What will the Project Look Like?

Travel Lanes from 113th Dr to 107th Ave

Current

Travel Lanes from 113th Dr to 107th Ave

Proposed
