

Neighborhood Notification: Bicycle Improvements on Central Avenue from Aster Drive to Thunderbird Road

As part of the Street Transportation Department's core mission, we strive to improve the City's roadways to create a safe and efficient transportation network. Our ongoing review of the street network and its design provides opportunities to change striping to improve safety for people who walk, drive, ride bicycles and use transit.

About the Project

Where: Central Avenue from Aster Drive to Thunderbird Road

What: Where there is enough space on the roadway, buffered bike lanes will be added. The number of travel lanes will remain the same. The project does not remove or add parking.

When: Traffic lane improvements are planned for 2024.

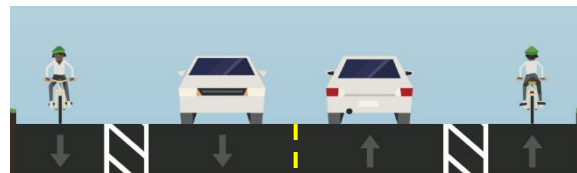

Why: Buffered bike lanes add space between people driving and people walking or biking for increased protection from vehicles, improved safety and added comfort. Additionally, the slight narrowing of the lane widths to accommodate the buffered bike lanes will help to guide cars and deter speeding.

What will the Project Look Like?

Travel Lanes from Aster Dr to Thunderbird Rd
