

Neighborhood Notification: Bicycle Improvements on Liberty Lane from 24th Street to 32nd Street

As part of the Street Transportation Department’s core mission, we strive to improve the City’s roadways to create a safe and efficient transportation network. Our ongoing pavement maintenance program provides opportunities to change the current traffic lane striping to improve safety for people who walk, drive, ride bicycles and use transit.

About the Project

Where: Liberty Lane from 24th Street to 32nd Street

What: Where there is enough space on the roadway, buffers will be added to existing bike lanes. The number of travel lanes will remain the same. No parking areas will be removed.

When: Pavement maintenance (new asphalt) is planned for Spring 2024 and traffic lane improvements will happen shortly after.

Why: Buffered bike lanes add space between people driving and people walking or biking for increased protection from vehicles, improved safety and added comfort. Additionally, the slight narrowing of the lane widths to accommodate the buffered bike lanes will help to guide cars and deter speeding.

What will the Project Look Like?

24TH ST TO 25TH ST

Current Travel Lanes
(No Parking Allowed)

Proposed Travel Lanes

25TH ST TO 27TH PL

Current Travel Lanes
(No Parking Allowed)

Proposed Travel Lanes

27TH PL TO 32ND ST

Current Travel Lanes
(Parking allowed south side)

Proposed Travel Lanes
