

Neighborhood Notification: Bicycle Improvements on Palm Lane from 86th Drive to 83rd Avenue

As part of the Street Transportation Department's core mission, we strive to improve the City's roadways to create a safe and efficient transportation network. Our ongoing pavement maintenance program provides opportunities to change the current traffic lane striping to improve safety for people who walk, drive, ride bicycles and use transit.

About the Project

Where: Palm Lane from 86th Drive to 83rd Avenue

What: Where there is enough space on the roadway, buffered bike lanes will be added. The number of travel lanes will remain the same. No parking will be removed.

When: Traffic lane improvements are planned for Spring 2024.

Why: Buffered bike lanes add space between people driving and people walking or biking for increased protection from vehicles, improved safety and added comfort. Additionally, the slight narrowing of the lane widths to accommodate the buffered bike lanes will help to guide cars and deter speeding.

What will the Project Look Like?

Travel lanes from 86th Dr to 85th Ave

Current

Proposed

Travel lanes from 85th Ave to 83rd Ave
